Family Resource Center Quarantine Hacks for Kids

JELL-O DIG INFANT/ TODDLERS

Supplies Needed:

- Instant Jell-O mix (x₃)
 - caution: using bright colored Jell-O (red, purple, blue) may stain your child's skin. You can avoid this by using yellow Jell-O or natural Jell-o's that do not have food coloring in them
- Waterproof/bath toys

What to do:

- 1. Follow the Jell-O instructions
- 2. When done mixing, fill a bin or bowl with toys and then pour the Jell-O in.
- 3. Once cool and the Jell-O has set allow your child to dig through the Jell-O to find the hidden treasures.
 - Make sure you do this somewhere that is easy to clean (in their high chair, on the kitchen floor, or outside)

Not sure you want your child playing in Jell-O? Visit the link for more sensory bin ideas.
