

POURING STATION

TODDLERS

Materials:

- Empty plastic tub
- Various containers/jugs
- Water
- Food Coloring

What to do:

1. Fill each of the containers/jugs with water and add different colors to each of them
 - Have at least a few different colors and have extra containers that are empty
 - Set this up outside
2. Let your child begin pouring from one container to another.

What they are learning:

- Cause and effect
- Hand eye coordination
- Life skills- being able to pour their own juice!
