Family Resource Center Quarantine Hacks for Kids

## DIY PHONE AMPLIFIER

## **Teens**

## **Supplies Needed:**

- Toilet paper roll (or paper towel if using a larger phone/tablet)
- 2 paper or plastic cups
- Pencil or pen for tracing
- Scissors and/or craft knife
- Washi tape, colored paper, paint, markers, or other decorating supplies

## What to do:

- Take your phone and trace around the bottom (with a pencil or pen) of it onto the toilet paper roll
  - If you have a larger phone or want to do this for a tablet, you can use a paper towel roll
- Cut out the slot using the scissors and/or craft knife
- 3. Trace the ends of the toilet paper roll (circle part) onto the lower side of each cup (1 per cup)
- 4. Cut out the circles on each cup
- **5.** Decorate the toilet paper roll and cups however you'd like
- 6. Once you are done decorating your tube and cups, slide the tube into each circle cut out on the cups
- 7. Place your phone into the slot in the tube and start playing your music!
